MONIQUE (MO) STEVENS

Full-Cycle Recruiting | Engineering, GTM, and Corporate Hiring | Onboarding and People Programs

Milwaukee, WI (Remote) | 262-960-7991 | moniquegstevens@gmail.com | linkedin.com/in/moniquegstevens | moniquegstevens.github.io

SUMMARY

Recruiter who also runs what happens after the offer. I've recruited agency, RPO, and in-house, and I do my best work when there's no playbook yet: I built a recruiting function from nothing in 60 days. Today I hire engineers, sales reps, account managers, marketing, and corporate roles at the same time, and I built the onboarding, check-in, and exit interview process for 50+ new hires a week. I want to help build Pogo's People team from the ground up.

EXPERIENCE

Recruiter II / Talent Acquisition Advisor | *Uniti Group Inc. (Remote)* | Sep 2024 - Present

- **Recruiting Across Functions:** Recruit end to end for technical, corporate, marketing, door-to-door sales, and account manager roles, plus high-volume hourly field hiring, from sourcing through offer in Dayforce.
- **Hiring Manager Partnership:** Run intake calls on every req to agree on must-haves, timeline, and scoring before sourcing, and coach hiring managers on how to run interviews.
- **New Hire Program:** Ran the new hire program as the go-between for recruiters, IT, L&D, and HRIT for 50+ hires a week. Day 1 issues dropped from roughly 50% to zero within two weeks.
- **Retention and Offboarding:** Built the guide and process for Day 1, 30, 60, and 90 check-ins and exit interviews to catch new hires at risk of leaving.
- **Employee Support:** Answer employee and new hire questions on benefits and next steps, and support managers through performance reviews.
- **Employee Experience:** One of four on the HR employee experience committee: plan department events and run coffee chats and contests for remote teams. Board member of the ADAPT employee resource group.
- **People Data and Reporting:** Pull weekly headcount, new hire, and rehire reports for leadership across 5 business units, and run HRIS accuracy checks.
- **AI Enablement:** Co-led a three-session AI training series for managers up to VP level and wrote company-wide AI guides recognized at the VP and SVP level.

At a glance: *15-20 reqs at a time | 50+ new hires onboarded per week*

TA Technical Recruiter | *Motorola Solutions (Hybrid Chicago)* | May 2022 - Sep 2023

- **Global Recruiting:** Full-cycle hiring across Engineering, AI/ML, Cloud, and IT Program Management in the U.S., Canada (including French-language offers), Mexico, and the EU.
- **Internship Pipeline:** Ran the global internship pipeline and campus career fairs, screening 5-10 students a week for 2-3 intern hires a month.
- **Creative Offer Structuring:** A pay gap stalled a 3-person Google SRE team, all earning over $200K. I designed a $50K sign-on with a 4-year clawback, pitched it to Compensation, and got it approved. All three accepted.
- **Faster Hiring:** Cut time to hire 20% in my first month with kickoff calls that locked in role requirements before sourcing started.

At a glance: *10-20 reqs at a time | 15-20 phone screens per week | 90%+ offer acceptance | 5-7 hires per month*

RPO Lead | *STS Technical Services (Agency - Remote)* | Mar 2021 - May 2022

- **Built From Zero:** Started with no process, CRM, or pipeline. Built screening workflows, intake frameworks, and scorecards in 60 days, then cut time to fill 20% in 4 months.
- **Hired, Then Handpicked:** Joined as an agency recruiter, was asked by the client to become their sole RPO recruiter, and was promoted to RPO Lead within 3 months. The client requested me on every project, turning a 2-month engagement into more than a year.

At a glance: *20+ reqs at a time | 10+ phone screens per week | 3-5 hires per month*

Technical Recruiter (Contract) | *Beacon Hill Staffing Group (Agency - Remote)* | Jan 2021 - Mar 2021

- Recruited Java and Cloud engineers and high-volume hourly field roles across multiple client reqs.
